BACKGROUND

Academic and practical training as a Medical Laboratory Scientist, has led to development of strong analytical, problem-solving, and data interpretation skills. I have experience managing time-sensitive projects, maintaining quality standards, and collaborating in multidisciplinary teams. I am eager to apply these competencies to the business environment, where I believe my scientific mindset, attention to detail, and commitment to ethical practices can contribute to innovation and strategic thinking in entrepreneurship

WORK EXPERIENCE

Medical Laboratory Intern

JUN 2024 - AUG 2024

University of Nairobi Health services

- Performed diagnostic tests.
- Contributed to research and lab audits for infection control.
- Ensured adherence to quality standards.

Student research assistant
